

## Application for Certification as an Eligible Energy Resource Under the Delaware Renewable Energy Portfolio Standard

1.	Name of Facility 1993371				
2.	Facility Address 23519 Elmwood Avenue West				
	Lewes, DE 19958				
	Is the facility located within the PJM co If No, does the Facility have import cap	_	■ Yes □ Yes	□ No	
3.	Name of Owner Solar Integrated Fund V, LLC				
	Mailing Address 6611 South Las Vegas Blvd, Las Vegas NV 89119				
	Phone (702) 680-6644	Fax			
	Email incentives.SREC@tesla.com				
4.	Name of Operator Tesla Energy Operations, Inc.				
	Mailing Address 6611 Las Vegas Blvd S. Ste 200				
	Las Vegas, NV 89119				
	Phone (702) 680-6644	Fax			
	Email incentives.SREC@tesla.com				

<sup>&</sup>lt;sup>1</sup> Documentation will be required to substantiate import capabilities into PJM

5.	Name of Contact Person  Carly Hamilton				
	Mailing Address				
	6611 Las Vegas Blvd S. Ste 200				
	Las Vegas, NV 89119				
	Phone 888.765.2489 Fax				
	Email incentives.SREC@tesla.com				
6.	Name of REC/SREC Owner Tesla Energy Operations, Inc.				
	Mailing Address 6611 Las Vegas Blvd S. Ste 200				
	Las Vegas NV 89119				
	Phone (702) 680-6644 Fax				
	Email incentives.SREC@tesla.com				
7.	List all PJM-EIS GATS State Certification Numbers assigned to this facility: PA-102938-NSTI-I				
8.	Operational Characteristics:				
	Fuel Types Used (check all that apply):				
	lacksquare Gas combustion from the anaerobic digestion of organic material				
	☐ Geothermal				
	☐ Ocean, wave or tidal actions, currents, or thermal differences				
	☐ Qualified Biomass <sup>i</sup>				
	☐ Qualified Fuel Cells <sup>ii</sup>				
	☐ Qualified Hydroelectric <sup>iii</sup>				
	☐ Qualified Methane Gas captured from a landfill gas recovery system <sup>iv</sup>				

	■ Solar					
	☐ Wind					
	If co-firing, provide the formula on file with PJM Environmental Information					
	Services, Inc. (PJM-EIS)					
	Rated Capacity (in megawatts - DC) 0.0033					
	If multiple fuel types are utilized, attach the formula for computing the portion of output per fuel type by megawatts per hour generated.					
	Facility Final Approved Interconnection Date 12/08/2017					
	If co-firing with fossil fuels, co-fire start date					
	If co-firing with fossil fuels, attach the allocation formula on file with PJM.					
9.	Is the Applicant's facility customer-sited generation <sup>v</sup> ?  ■ Yes □ No					
	Is the Applicant's facility a community owned generating facility <sup>vi</sup> ?  ☐ Yes ☐ No					
	Can the output from the customer-sited generation be appropriately metered?  Yes  No					

10. If the Applicant's installation is solar or wind sited in Delaware, is a minimum of 50% of the cost of the renewable energy equipment, inclusive of mounting components, manufactured in Delaware?				
□ Yes* • No				
Tesla Energy Operations, Inc.	CaryHamler			
Company Name of Installer	Signature of Company Representative			
6611 Las Vegas Blvd S. Ste 200	Carly Hamilton			
Address Las Vegas, NV 89119	Print Name of Company Representative			
Address				
<ul> <li>*If Yes, please attach the following documentation:         <ul> <li>A copy of the supplier's invoice showing Delaware manufactured equipment with this facility identified</li> <li>If the supplier's invoice shows only a coded Purchase Order (PO) number, a copy of the company's matching PO that includes the address where the materials were used/installed, must also be supplied</li> <li>If using a master invoice, a record of the draws against the purchased quantity, on the master invoice, must show the address of each use and the quantity of material used</li> </ul> </li> <li>If the Applicant's installation is solar or wind sited in Delaware:</li> </ul>				
	onstructed or installed with a workforce that			
b. Does the installing company who are Delaware residents	y employ, in total, a minimum of 75% workers ?			
☐ Yes* ☐ No	ness:			
Tesla Energy Operations, Inc.	CanyHamlon			
Company Name of Installer	Signature of Company Representative			
6611 Las Vegas Blvd S. Ste 200	Carly Hamilton			
Address Las Vegas, NV 89119	Print Name of Company Representative			
Address				

Rev. 8-11-2015

<sup>\*</sup>If Yes, please attach supporting documentation (see pages 7-8 for details). Please note, in order to qualify for the Labor/Workforce Bonus, at least one of the options (a. or b.) must be met.

### , Carly Hamilton (print name) hereby certify under penalty of perjury that

- 1. I have made reasonable inquiry, and the information contained in this Application is true and correct to the best of my knowledge, information and belief.
- 2. I am authorized to submit and execute this Application and to bind myself and/or my company to the representations contained herein.
- 3. I/my company agree(s) to comply with and be subject to the jurisdiction of the Public Service Commission of the State of Delaware for any matters arising out of my submission of this Application or the granting of the Application.
- 4. In the event that any of the information contained in this Application changes pending the consideration of this Application or after the Application is granted, I/my company will amend the Application to provide the Commission with such changed information.
- 5. I acknowledge that if any of the representations made in this Application or in any amendment thereto are found to be untrue when made, I/the company may be subject to sanctions, including but not limited to monetary fines and/or the revocation of any Certificate granted as a result of the representations made in this Application.

Signature: Cany Hammon

Date: 5/30/2018

### **Required Documentation:**

- If the facility is customer-sited generation, attach a copy of the utility's Final Approved Interconnection Agreement
- One copy of U.S. Department of Energy, Energy Information Administration Form EIA-860, if rated capacity is >1.0 MW

- 1. Increased production of landfill gas from production facilities in operation prior to January 1, 2004 demonstrates a net reduction in total air emissions compared to flaring and leakage;
- 2. Increased utilization of landfill gas at electric generating facilities in operation prior to January 1, 2004 (i) is used to offset the consumption of coal, oil, or natural gas at those facilities, (ii) does not result in a reduction in the percentage of landfill gas in the facility's average annual fuel mix when calculated using fuel mix measurements for 12 out of any continuous 15 month period during which the electricity is generated, and (iii) causes no net increase in air emissions from the facility; and
- 3. Facilities installed on or after January 1, 2004 meet or exceed 2004 Federal and State air emission standards, or the Federal and State air emission standards in place on the day the facilities are first put into operation, whichever is higher.

Rev. 8-11-2015

<sup>&</sup>lt;sup>i</sup> "Qualified Biomass" means electricity generated from the combustion of biomass that has been cultivated in a sustainable manner as determined by Delaware Department of Natural Resources and Environmental Control (DNREC), and is not combusted to produce energy in a waste to energy facility or in an incinerator.

<sup>&</sup>quot;Qualified Fuel Cells" means electricity generated by a fuel cell powered by Renewable Fuels, as that term is defined in Section 1.0 of the Rules and Procedures to Implement the Renewable Energy Portfolio Standard, Delaware Public Service Commission Regulation Docket No. 56.

<sup>&</sup>quot;" "Qualified Hydroelectric" means electricity generated by a hydroelectric facility that has a maximum design capacity of 30 megawatts or less from all generating units combined that meet appropriate environmental standards as determined by DNREC.

<sup>&</sup>quot;" "Qualified Methane Gas" means electricity generated by the combustion of methane gas captured from a landfill gas recovery system; provided, however, that:

<sup>&</sup>quot;Customer-sited Generation" means a generating unit that is interconnected on the end use customer's side of the retail electricity meter in such a manner that it displaces all or part of the metered consumption of the end-use customer.

<sup>&</sup>quot;"Community-owned Energy Generating Facility" means a renewable energy generating facility that has multiple owners or customers who share the output of the generator, which may be located either as a stand-alone facility or behind the meter of a participating owner or customer. The facility shall be interconnected to the distribution system and operated in parallel with an electric distribution company's transmission and distribution facilities.

### **Documentation Required for Delaware Labor/Workforce Bonus**

- 11. If the Applicant's installation is solar or wind sited in Delaware:
  - a. Was the facility physically constructed or installed with a workforce that consists of at least 75% Delaware residents?

If you answered yes to "a." above, complete the following as evidence.

The following individuals (list every employee) were employed by

Installation Company Name

as direct labor (physical construction and installation) for this facility: (Attach additional sheets if necessary)

Please complete the following information for all individuals listed above:

Name	Home Address City, State only (As per Tax Withholding)	Social Security Number (Last 2 digits only)
Total Delaware Resident Emp	loyees: Total Nu	umber of Employees:

Rev. 8-11-2015

% of Delaware Residents (Delaware Residents Divided by Total Employees): \_\_\_\_\_\_

## **Documentation Required for Delaware Labor/Workforce Bonus**

- 11. If the Applicant's installation is solar or wind sited in Delaware:
  - b. Does the installing company employ, in total, a minimum of 75% of workers who are Delaware residents?

If you answered yes to "b." above, complete the following as evidence:

	Installation Company Name	
employed the following individuals project start date until project cominterconnection approval to operate	pletion date). Projects are consid	ered complete upon final
Project Start Date:	Project Complete Date:	
Employee Full Name	Home Address City, State Only (As per Tax Withholding)	Social Security Number (Last 2 digits Only)

## <u>Delaware Electric Cooperative</u> <u>Generator Interconnection Application – Short Form</u>

(For Use with Generators less than 100 kW DC)

An applicant (Generator Owner) makes application to Delaware Electric Cooperative to install and operate a generating facility less than 100 kW DC and interconnected with the Delaware Electric Cooperative utility system.

Section 1, Applicant Information Directly Interconnected to the Generating System						
Is the following system:	✓ Leased	or		Member O	wned	
Type of Application:	Initial	or		Addition/U	Ipgrade	
Name: Cheryl Alibrando	•	120 1 2 1 1 1				
Mailing Address: 23519 El	mwood Avenue	West				
City: Lewes	State:	DE	Z	LipCode: 19	958	
Email Address: cherylalib			## - 52			
Facility Location (if different from	om above): 23519 El	mwood Av	ve W, Le	ewes, DE	19958, US	-
Telephone: Area Code N	lumber_8569319260	(Evening) A	rea Code_	Nu	mber	
Delaware Electric Cooperative Account No.: 4466804 Rate Code:						
Section 2, Equipment Contractor						
Name: SolarCity Corpor	ation DBA Tesla	a Energy	×	u u 2002		
Mailing Address: 6671 Las Vegas Blvd South # 200						
<sub>City:</sub> Las Vegas	State:	NV	Z	ipCode: 89	1119	_
Email Address: Interconnection.D	E@solarcity.com Teleph	one (Daytime	e): Area C	702	Number 70	)3-8951
Section 3, General Service Requirements						
If different from the existing service, what size service will the generation facility require?						
X 200A	600A	800A				
If this is a new account for a Sol	ar System, what Voltage	Phase will b	e required	1?		
120/240V-1Ph 12	0/208V-1Ph12	20/208V-3Ph	2	:77/480V-3F	'h	

### Section 4, Application Fee

This application fee is applicable for all new PV applications received on or after May 20, 2016. The cost will be \$50.00 per application (new and/or upgrade) for systems 25 kW DC or less. For systems over 25 kW DC the fee will be \$50.00 plus \$1.00 kW DC over 25 kW DC. All interconnection applications submitted to DEC shall be

# <u>Delaware Electric Cooperative</u> <u>Generator Interconnection Application – Short Form</u> (For Use with Generators less than 100 kW DC)

accompanied with the appropriate fee made out to Delaware Electric Cooperative and are non-refundable. No applications will be considered without the fee.

Section 5, Generator Type				
Is Generator powered from a Renewable Energy Source:  Yes No				
Type of Energy Source (if applicable):				
Other generator energy source: Diesel Natural Gas Fuel Oil Other:				
Will excess power be exported to Delaware Electric Cooperative?  Yes No				
(Typical) Maximum Export: 3.3 kW DC AC				
2 Yr. Avg. Annual Usage (kWh): 8254 Forecast Annual kWh: 2,880 kWh				
(Note: The Annual Forecast MUST be completed using 4.5 peak sun light hours per days)				
Section 5, Generator Technical Information				
Please fill out the Initial Rating information if there is currently no generating facility on-site. If adding a generating facility to an existing facility, fill out the Initial Rating Information, the Added Rating Information and the Total Rating Information				
Generator (or solar collector) Manufacturer, Model Name & Number: Harrowing SolarCore (Cindeng) Q.Peak-G4.1/SC300 11  (A copy of Generator Nameplate and Manufacturer's Specification Sheet may be substituted)				
Inverter Manufacturer, Model Name & Number (if used).  (A copy of Inverter Nameplate and Manufacturer's Specification Sheet may be substituted)				
Initial Rating:  DC System Design Capacity: 3.3 (kW) (kVA)  Inverter Capacity: 3.0 (Maximum AC kW)  AC System Design Capacity: 2.805 (kW) (kVA)				
Added Rating:  DC System Design Capacity: (kW) (kVA)  Inverter Capacity: (Maximum AC kW)  AC System Design Capacity: (kW) (kVA)				
Total Rating (Existing and New):  DC System Design Capacity: 3.3 (kW) (kVA)  Inverter Capacity: 3.0 (Maximum AC kW)  AC System Design Capacity: 2.805 (kW) (kVA)				

## **Delaware Electric Cooperative** Generator Interconnection Application - Short Form

(For Use with Generators less than 100 kW DC)

#### Generator Disconnect Switch:

A lockable disconnect device shall be installed within 3 feet of the DEC meter and accessible at all times by DEC personnel, by and at the cost of the owner.

## Section 6, Generator/Equipment Certification

Generating systems that utilize inverter technology must be compliant with IEEE 929 and Underwriters Lab. UL 1741. Generating systems that use a rotating machine must be compliant with Delaware Electric Co-op's Technical Requirements For Parallel Operation of Member Owned Generation document. By signing below, the Applicant certifies that the installed generating equipment meets the appropriate preceding requirement(s) and can supply documentation that confirms compliance.

Name (print): Cheryl Alibrando	2 0	Date: 7-24-17
Signed (Applicant):	Calibrard	)
Section 7, Aggregated Meter Inform		
the credit, however, DEC may elect to may	ce payment to the account of	e order in which credits shall be applied (We don't apply serving the Generating System) Additionally, the following tal 2-year Annual Average kWh to ensure the new system is
1 - DEC Member Name		Rate Code:
DEC Account No.:	_ Capacity (DEC):	2 Yr Annual Average kWh:
2 - DEC Member Name		Rate Code:
DEC Account No.:	Capacity (DEC):	2 Yr Annual Average kWh:
